SUBJECT: Home-Dell Construction Company, 1050 State Street, Perth
Amboy, New Jersey, EPA ID No. NJT 000 030 031

On November 21, 1980, Home-Dell Construction Company submitted a notification of hazardous waste treatment, storage or disposal activity to the USEPA. The company indicated that they were a generator, transporter, and treater/storer/disposer of hazardous waste. Home-Dell Construction Co. never filed a Part A permit application, and thus never obtained "existing facility" status.

An inspection by Wolfgang Skacel of the Central Field Operations on 9/19/86 revealed that Home-Dell is no longer operating a hazardous waste facility at the site. However, hazardous waste oil and solvents has remained on-site in tanks, pending the completion of litigation regarding the company's numerous violations of the Solid Waste Management Act.

Remediation of the site is being handled through the Division of Responsible Party Site Remediation. Furthermore, since the company never obtained "existing facility" status, and since the company has discontinued TSD activities, Home-Dell Construction Company is no longer included the in NJDEPE's list of treatment, storage or disposal facilities.
